Dear Dan:

It was very thoughtful for you to send me the data you gathered in the counterfeit coin detecting devices.

As you said George Mallis and I are writing on American coin scales and counterfeit coin detecting devices. Do you have any California gold rush scales or anything which we might have missed. It is a very difficult subject after you get past the patents.

My best to you,

Eric P. Newman

P.S. Do you have a list of the items you have in this field ?

Dear Dan:

Some research has brought you to mind and I hope all is well with you as the holiday season approaches.

Would you be nice enough to see if you have any price lists or other publications issued by Steven K. Nagy of Philadelphia. Also I would be interested in learning what St. Louis Stamp & Coin price lists you have in your library.

I will appreciate hearing from you in due course.

Sincerely,

A handwritten signature in blue ink, appearing to read "Eric P. Newman".

Dear Dan:

The information about my mentor (B.G. Johnson) of the St. Louis Stamp and Coin Co. was most appreciated. You have a marvelous group of his publications. To make it appear more complete I think it is quite likely that his "Special Stock Reduction Circular" and his "Special Bargain Lists" are the same series because the numbers you have coordinate with each other.

I still look forward to your threatened visit to St. Louis. I have loads to talk to you about.

I will be teaching at the ANA summer conference and at ANS this summer for a few days to keep me up to date with young numismatic thinking.

My best,

Eric P. Newman

Eric,

Sorry for the delay in getting back to you regarding your request regarding price lists by Steven K. Nagy and St. Louis Stamp & Coin Co.

Stephen K. Nagy:

- Price List # 19 N.D. 24 pgs
- 1925 Price List # 30 16 pgs
- 1925 Price List # 32 8 pgs

You will find copies of the front covers of the above Nagy FPL's enclosed.

Also enclosed please find a list of all the St Louis Stamp & Coin Co. lists I have. Most of the Price List "Booklets" are in their original mailing envelopes as noted. I hope this information will be of some use to you.

I will be attending the Mid-Year ANA in Cincinnati March 19-21. If you plan to attend please let me know. (217-351-6012) It would be nice to see you again. Otherwise, I hope all is well, and that we may visit again soon.

Eric,

Thank you for your recent letter. It was interesting to find out that the "Heath" detector I sent you was fashioned after a different assortment of images than the other editions of similar dates. I did not catch the mis-attribution in the Kolbe/Fanning sale catalog for the lot as being described as a banking house edition rather than a pocket edition. Good eye.

Every 4 or 5 months a U.S. coin counterfeit detector scale will show up on ebay that I have an interest in. I am not the type of bidder that waits until the last few seconds to place a bid. I place a generous bid, and wait for the sale to end thinking I will have the winning bid. I just got outbid again last night on a Fairbanks & Ewing 25/50 cent rocker style scale. I thought I knew most of the other CCD collectors like us, but I think there may be some new players out there. If you ever get tired of your duplicates, let me know. You could save me the frustration of playing the ebay game.

I know you spend much of the summer out east, but you were missed at the ANA in Chicago last August. As the outgoing President of the Numismatic Bibli Socity, we had a well attended NBS meeting that included Dave Bowers, John Adams, George Kolbe, and Harvey Stack as attendees. Harvey won NBS honors for the "Best New Author" for the Asylum. Imagine that, Harvey as Best New Author. In accepting the honor, Harvey shared a few numismatic stories with the group. Later that night, we took a break for dinner (just kidding, but you know Harvey does like to talk) Elizabeth Hahn, the new ANS librarian, gave a presentation on the updated ANS library web site. She is doing a fine job, and is filling the void that Frank left when he retired. Ute has taken a leave as Director of the ANS to do some research, and Andrew Meadows has assumed the post until her return next year. The ANS move to Vanick Street has proved to be a good move. Visitation to the ANS and library usage is up significantly. I was honored at the October ANS general meeting to be re-elected to the board of trustees for another term. This term, my objective is to find ways to improve the library. One of the more needy areas includes restoration and preservation of items in the rare book room. Your generous support of the ANS over the years has been greatly appreciated.

I am glad to hear that you are doing well and still have "most of your marbles." I had a health setback last year with a diagnosis of prostate cancer, but my surgery last fall was successful, and I am doing well. This getting old thing is not for the faint of heart. You have managed to meet and greet the advancing years with vigor and spirit. As I recently entered the Medicare population, I have a new found appreciation for good health and an optimistic outlook. You have mastered both, and have set a fine example for others to follow. Stay well, and I hope to see you soon.

My best to you,

Dan Hamelberg

ERIC -

It was great talking to you! Glad I could help out with your archive of St Louis Stamp & Coin Co. material. I will see if I can come visit soon. Meanwhile, stay well.
